

SKIFSKA ETNIKA, Ukrainian family enterprise with the main office in Belaya Tserkov town, was established in 2008.
We create modern jewelry with the deep historical background.

SKIFSKA ETNIKA, is a complete cycle of modern production making bijou of high quality, from the very idea up to sketch and then to the objectification in the ready-made product. The past is interesting by its sense; ancient art is always a message. The main treat of our bijou is its meaningfulness; it's full of symbols and ancient aesthetics. Some of Skifska Etnika bijou items look like findings from steppe mounds, but we are not interested in copying artifacts. We make modern jewelry, and ancient civilizations art are solid foundation of our designs.
