## Liudmyla Strinadko

Liudmyla was born in the village of Doslidne of Nosiv district at Chernihiv region. After high school she moved to Kyiv and studied education.

Liudmyla also courses in hand and machine embroidery. She decided to specialize in hand stitch embroidery. She did not make shawls in the beginning. First she was making pictures presenting them to her friends. After meeting a dear friend who inspired her, she began to make embroidered shawls. Recently she found out that her father also embroidered and has found some pieces of his hand art.

Liudmyla decided to make shawls because besides the embroidered shirt, the traditional Ukrainian folk dress has always had a shawl. “I decided to start making embroidered shawls as they are an important piece of the traditional female outfit.”
